

4x4

MOUNT: Direct Fit
VEHICLE: Holden Colorado RG 2.8L

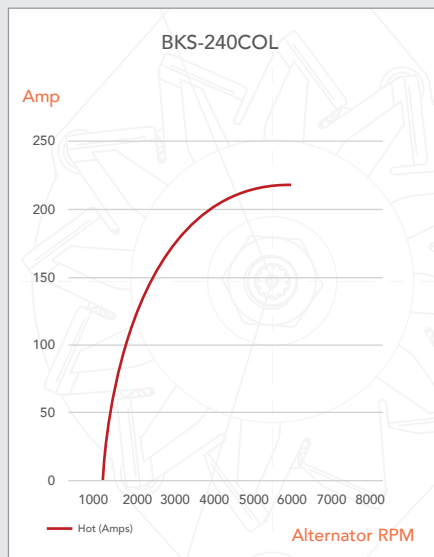

Part Number: BKS-240COL

FEATURE:

- 13.5V @ 240A **Cold**
13.5V @ 217A **Hot**
- Litens pulley used
- Upgraded technology

BENEFITS:

- Suitable for vehicles with high electrical loads and 4x4 vehicles requiring higher outputs than the standard 140A Alternator.
- Allows the battery packs to be maintained in a full state of charge.
- Long lasting D coupler instead of clutch pulley.
- Higher charge @ lower RPM.
- Professional look.

Idle output will depend on the size of the alternator pulley and harmonic balancer.
