RE: ADR 35/05 Compliance Assessment for EuroSpares Depot Front & Rear Brake Kits

ABMARC has been engaged by EuroSpares Depot to support the design validation of their range of front and rear brake conversions and upgrade kits that they have designed for light commercial vehicles.

Each conversion/upgrade kit was evaluated against the following criteria:

1. ADR design requirements:
 - a. Suitability/ Compatibility
 - b. Strength and Bending Moment of the Supplied Caliper Mounts
 - c. Fluid Reservoir Capacity
2. Brake Performance

The following vehicles have been assets using the criteria's above for the following Cooldrive front and rear brake kits and are complaint with ADR35/05.
